Bioelectrophotonics

CERTIFICATE

This is to certify that

Mrs. Katja Jelovčan

and

Mr. Drago Vrhovnik

have made measurement of geopathic stress with the GDV/EPC Technology in accordance with the Guidelines for Measurements of the Energy of Space by Prof. Dr. Korotkov and the International Union for Medical and Applied Bioelectrography.

The Measurements were done to evaluate the

Influence of GEOPATIC TUNGAJ Protection Devices

on geopathic stress zones in the

City hall Nova Gorica, dated 23.05.2013

The measurements have shown that the above mentioned protection devices have a significant protecting influence both on geopathic stress and on the Human Energy Field. The results were provided to the Institute for Bioelectrophotonics for evaluation.

Würzburg/Germany, October 4, 2013-10-09
