

Institute for  
Bioelectrophotonics

# CERTIFICATE

This is to certify that

**Mrs. Katja Jelovčan**

and

**Mr. Drago Vrhovnik**

have made measurement of geopathic stress with the GDV/EPC Technology in accordance with the Guidelines for Measurements of the Energy of Space by Prof. Dr. Korotkov and the International Union for Medical and Applied Bioelectrography.

The Measurements were done to evaluate the

**Influence of GEOPATIC TUNGAJ Protection Devices**

on geopathic stress zones of the

**Power line Mala Seva, dated 18.05.2012**

The measurements have shown that the above mentioned protection devices have a significant protecting influence both on geopathic stress and on the Human Energy Field. The results were provided to the Institute for Bioelectrophotonics for evaluation.
